ANJC Community,

It is my absolute honor to welcome you to the Association of New Jersey Chiropractors Annual Conference as your new Executive Director. Stepping into this role is a tremendous privilege, and I want to begin by thanking the board, our dedicated staff, and all of you for the incredibly warm welcome I've received.

Since taking on this position, I have been deeply inspired by the passion and dedication that defines our membership. Every day, you are on the front lines of health and wellness, transforming the lives of your patients and championing a holistic, patient-centered approach to care. The work you do is vital, and the positive impact you have on communities across New Jersey cannot be overstated.

This year's conference is a celebration of that impact, but it is also a powerful opportunity for us to look ahead. We have assembled an outstanding lineup

of speakers, cutting-edge clinical workshops, and invaluable resources designed to elevate your practice and inspire your staff. Whether you are here to master the latest techniques, discover new tools in the exhibit hall, or simply recharge and reconnect with colleagues, this weekend is built specifically for you.

As your Executive Director, my primary goal is to ensure that the ANJC remains a relentless, effective advocate for your practice. Together, we will navigate the evolving healthcare landscape, vigorously protect our scope of practice, and strengthen the unified voice of chiropractic in our state.

Please take full advantage of the educational sessions, the networking opportunities, and the camaraderie over the next couple of days. Thank you for your unwavering commitment to your patients, to this profession, and to each other.

Have a fantastic conference, and I look forward to meeting as many of you as possible this weekend!

Mark Doherty
Executive Director

WE EXTEND GRATITUDE TO OUR 2026 CONFERENCE COMMITTEE!

Conference FAQs

When will my credits get uploaded?

All NJ credits will be uploaded by June 5. If you have any questions regarding your credits, please email Jaclyn Waterman at jaclyn@anjc.info.

What happens when I miss a scan?

If you missed scanning in or out, please go to the registration desk for assistance.

How do I get out-of-state credits if I'm licensed in multiple states?

If you need out-of-state credits, you must select the states you are licensed in and need credit for through CE21 under your account when you registered. All out-of-state attendees **MUST** fill out the Out-of-State CE Form and return it to the registration desk to receive credit. The form can be picked up at registration. All credits will be processed within 30 days. The credits are sent to each state board: no action needed by the attendee.

Where are the bathrooms?

When entering the main registration area, bathrooms are to the immediate left OR past the registration desk at the end of the hall and to the left.

Complimentary WiFi Instructions

Turn on WiFi on your device and select the network named **Caesars_Resorts**

A splash page will appear *(if it does not, open your web browser and type in google.com)*. Once on the splash page, check the box to agree to the terms and conditions and click **CONNECT**.

Wait for the page to load and enjoy your free Harrah's Resort WiFi throughout the property's public areas.

MEET THE SPEAKERS

Carl Abramson, D.C.

Dr. Carl Abramson is a certified B3 BFR Coach and instructor with over 25 years of chiropractic experience and a background as a collegiate athlete. He specializes in rehab and performance, helping patients build strength, prevent injury, and stay active at any age. Dr. Abramson is passionate about using BFR training to support high-level performance and long-term health.

Kristen Bentson, D.C., M.S., IFMCP

Dr. Bentson is an author, speaker, and practitioner focused on root-cause healing. She wrote *The Cool Girl's Guide to the FODMAP Diet* and believes that "conditions are conditional," emphasizing lifestyle-driven change. Dr. Bentson is on staff at Lehigh Valley Health Network and trained in functional medicine, nutrition, and biofeedback.

James Campbell, D.C.

After a childhood neck injury left him in severe pain and facing chronic illness, Dr. Campbell found little relief through traditional medical care. A visit to a chiropractor revealed a misalignment, and a single adjustment not only resolved his pain but transformed his health. Inspired by this experience, he dedicated his career to helping others heal naturally and live healthier lives.

Steven G. Clarke, D.C.

Dr. Steven G. Clarke is President of the Association of New Jersey Chiropractors and a dedicated leader in chiropractic advocacy. With over 15 years of involvement, he has helped advance legislation, expand patient access, and promote drug-free care. Dr. Clarke is passionate about uniting the profession to create meaningful change.

Brian C. Coleman, D.C., M.H.S.

Dr. Coleman is an Assistant Professor of Emergency Medicine and Biomedical Informatics at the Yale School of Medicine and Assistant Professor of Biostatistics at the Yale School of Public Health. As a clinician-scientist, his health services research combines biomedical informatics and implementation science to study nonpharmacologic interventions for musculoskeletal pain.

Mike DeBord, D.C.

Dr. DeBord, a former chiropractor and founder of B3 Sciences, discovered Blood Flow Restriction (BFR) training in 2014 and was inspired by its impact on health and performance. He is now an internationally recognized expert with years of hands-on experience and research in the field. Dr. DeBord educates healthcare professionals nationwide and consults with athletes at all levels.

Kristi Hudson, CPCO

Kristi Hudson is the VP of Business Relations for ChiroHealthUSA and Administrator of the Foxworth Family Chiropractic Scholarship. She has worked within the chiropractic profession for 12 years and hosts one of the largest webinar series within the chiropractic profession. She currently serves on the board for ChiroCongress Cares and a member of the Chiropractic Summit.

Brandie Elizabeth Keates, D.C.

Dr. Keates is a leader in pregnancy chiropractic care with over 20 years of experience advocating for better prenatal support. Inspired by her own journey, she applies sports medicine principles to help women experience stronger, more supported pregnancies. Her work has earned multiple awards for clinical excellence and service.

Dave Klein, CPC, CPMA, CHC, COO

Dave Klein is the ANJC's coding and compliance consultant. He is the co-founder of PayDC, a web-based Electronic Health Records Practice Management system that focuses on compliance and reimbursement. He is a certified professional coder through the American Academy of Professional Coders and is certified in healthcare compliance through the Health Care Compliance Board.

Brian McAulay, D.C., Ph.D.

Dr. McAulay is a higher education leader who has served as president and executive across multiple chiropractic institutions. With a PhD in management, he is known for advancing academic innovation, accreditation, and enrollment growth. He also brings experience as a former chiropractic practitioner and profession-wide leader.

Michael A. Mestan, D.C., Ed.D.

Dr. Mestan is a second-generation chiropractor with extensive experience in clinical care, diagnostic imaging, education, and leadership. He has served as a professor, radiology practice owner, and contributor to research, accreditation, and professional organizations. Dr. Mestan holds advanced degrees in educational administration and has been with Northeast College since 2002.

Mr. Saleem Musallam

Mr. Saleem Musallam, a Johns Hopkins-educated Healthcare System Engineer, is the CEO of two FDA-registered medical device manufacturing companies: Excite Medical & US Orthotics. He serves on the University of South Florida's Board of Medical Engineering & the Board for the Florida Medical Manufacturers Consortium, representing 900+ FDA-registered medical device manufacturers.

Harlan Pyes

Harlan Pyes, founder of Harlan Health Products, holds a Master's in Exercise Physiology from Syracuse University. He is known for his hands-on approach and commitment to helping providers achieve strong clinical outcomes. Harlan Health supports practices with expert guidance and carefully selected products.

Jeffrey Randolph, Esq.

Jeffrey Randolph, Esq. is General Counsel to the Association of New Jersey Chiropractors, serving since its inception. With over 20 years in private practice, he specializes in healthcare law and medical malpractice defense. He also represents national chiropractic and acupuncture organizations.

Michael Schneider, D.C., Ph.D.

Dr. Schneider is a former chiropractor turned researcher, professor, and Director of the Doctor of Chiropractic program at the University of Pittsburgh. He holds a Ph.D. in Rehabilitation Science, has authored over 100 publications, and leads NIH-funded research. Dr. Schneider is an award-winning educator advancing chiropractic through research and training.

William Sherrier, D.C., M.A.

Dr. Sherrier is a longtime Palmer Florida faculty member, serving since 2003 in roles including clinician, educator, and Associate Dean of Clinical Sciences. He is known for his leadership in chiropractic education and program development. Dr. Sherrier is passionate about advancing the profession through strong academic and clinical training.

Brandon Steele, D.C., DACO

Dr. Steele began his career at The Central Institute for Human Performance and has trained with leading experts in musculoskeletal care. He holds certifications in Motion Palpation, DNS, ART, and McKenzie Therapy, and is known for his evidence-based approach. Dr. Steele lectures nationally, practices in Swansea, IL, and serves on the executive board of the ICS.

ITINERARY — BREAKOUT SESSIONS

Supplements That Actually Help: A Chiropractor's Guide to Research-Based Nutraceutical Support **Kristen Bentson, D.C., M.S., IFMCP • 2 Nutrition CEUs DC**

Room: 18-20

Learn clear, evidence-based approach to recommending nutraceuticals that support musculoskeletal, neurological, and overall health. Attendees will learn how to identify quality supplements, apply research findings, and integrate targeted strategies into care plans, helping improve patient outcomes with confidence.

Why Chiropractors Are Adopting BFR for Better Results & Retention

Mike DeBord, D.C. • Carl Abramson, D.C. • 2 CEUs DC

Room: 8-9 | *Sponsored by B3 Sciences*

This interactive program explores the science and application of Blood Flow Restriction (BFR) training. Attendees will learn how BFR stimulates muscle activation and recovery using low loads. The session covers safety, pressure principles, and practical protocols, giving providers tools to effectively implement BFR in clinical settings.

What Your Patients Don't Expect When They Are Expecting: And How To Help

Brandie Elizabeth Keates, D.C. • 2 CEUs DC

Room: 23-25 | *Sponsored by Foot Levelers*

Explore the physical and emotional challenges patients face during pregnancy and how chiropractors can provide support. Using sports medicine principles, attendees will learn to address common issues like back and pelvic pain while helping patients feel strong, supported, and empowered throughout pregnancy.

AI Driven Documentation and Compliance

Dave Klein, CPC, CPMA, CHC, COO • 2 CEUs DC/LCA

Room: 10-11 | *Sponsored by PayDC*

This session explores how artificial intelligence can improve clinical documentation, reduce administrative burden, and support compliance. Attendees will learn how AI enhances accuracy, addresses common workflow challenges, and supports reimbursement, while maintaining ethical and regulatory standards in practice.

Practice Growth Mastery: A Marketing Workshop for Doctors

Mr. Saleem Musallam • Non-Credit DC/LCA/CA

Room: 12-13 | *Sponsored by Excite Medical*

Learn practical marketing strategies to help chiropractors grow and sustain their practices. Attendees will learn how to attract and retain patients, build a strong brand presence, and implement effective digital and in-office marketing techniques to increase visibility and long-term success.

ITINERARY — MORNING/GENERAL SESSIONS

Transforming Chiropractic Research, Practice, and Education with Artificial Intelligence **Brian Coleman, D.C., M.H.S. • 2 CEUs DC/LCA • Moderated by Brett Wartenberg, D.C.**

Room: 28-30

Explore how artificial intelligence (AI) is transforming chiropractic research, clinical practice, and education. Attendees will learn how AI supports decision-making, streamlines documentation, and enhances patient outcomes. The session also highlights real-world applications, educational tools, and key ethical considerations for integrating AI into the profession, followed by a “fireside chat” and audience Q&A moderated by Brett Wartenberg, D.C.

Morning Rounds: A Legal Checkup on Scope of Practice, EMG, Shockwave, Diagnostic Testing, and Interactive Discussion of Unconventional Medico-Legal Cases

Steven G. Clarke, D.C. • Jeffrey Randolph, Esq. • 1 CEU DC

Room: 12-13

ANJC Legal Counsel Jeff Randolph, Esq. and ANJC President Steve Clarke, D.C., will review the history and scope of New Jersey chiropractic practice, including EMG, extracorporeal shockwave, and diagnostic testing. They will also discuss real-life cases impacting chiropractors and related practitioners, with interactive insights and takeaways for attendees. Time permitting, they will cover current hot topic issues addressed by the ANJC.

Using Technology to Improve Outcomes Through Patient Engagement and Practice Efficiency

Kristi Hudson, CPCO • 1 CEU DC/LCA

Room: 12-13 | *Sponsored by ChiroHealthUSA*

Patient-centered care and engagement are essential in today's chiropractic practice, and technology plays a key role in delivering both. As patients expect convenience and on-demand access, providers must adapt. This session explores how modern tools enhance communication, streamline workflows, and improve patient experiences, helping practices increase efficiency and support better outcomes.

Updated Research: Cervical Manipulation, Vertebra Artery Dissection and Stroke

Michael Schneider, D.C., Ph.D. • 2 CEUs DC

Room: 28-30

Dr. Schneider will present an overview of the epidemiology and prevalence of vertebral artery dissection (VAD), along with a review of cervical spine anatomy and the pathophysiology of arterial dissection. He will highlight research indicating a genetic predisposition for VAD, particularly among patients with connective tissue disorders. The presentation will also examine the limitations of commonly used “screening tests” and emphasize differentiating between dissection and stroke. A case study and review of VAD cases will support key clinical insights, followed by a discussion on documentation and standard of care.

Resolving Peripheral Nerve Entrapments – Upper Extremity

Brandon Steele, D.C., DACO • 2 CEUs DC

Room: 28-30 | *Sponsored by ChiroUp*

This hands-on session focuses on diagnosing and treating common upper extremity nerve entrapments. Attendees will learn neurodynamic testing, nerve release, and treatment techniques to address pain, numbness, and neuropathies, gaining practical skills to improve patient outcomes.

ITINERARY — MORNING/GENERAL SESSIONS

Advancing the Principles of Chiropractic Practice: A Discussion with Chiropractic College Presidents

Brian McAulay, D.C., Ph.D. • **Michael A. Mestan, D.C., Ed.D.**
Michael Schneider, D.C., Ph.D. • **William Sherrier, D.C., M.A.**
Moderated by James Campbell, D.C. • 2 CEUs DC

Room: 28-30

This program features a panel discussion with presidents of accredited chiropractic colleges, focusing on the evolving principles that guide modern chiropractic practice. The session will explore foundational clinical philosophies, emerging practice models within today's healthcare environment, and the competencies required for chiropractors to deliver safe, effective, and evidence-informed patient care. Panelists will also highlight current research initiatives that support clinical excellence and discuss the future direction of chiropractic practice in response to changing patient needs and healthcare delivery trends.

ITINERARY — LCA SESSIONS ONLY

Creating the Perfect Patient On Your 1st and 2nd Day

James Campbell, D.C. • 2 CEUs

Room: 12-13

This interactive course will cover the first- and second-day patient management for CAs. They will learn what is needed to shape the patient's first impressions and overall experience. This course will teach the basics of the consultation exam, x-rays, and how to set up therapy.

Balance at the Front Desk

Kristi Hudson, CPCO • 2 CEUs

Room: 12-13 | *Sponsored by ChiroHealthUSA*

According to a study released in June 2018, increases in cost-sharing payments continue to outpace wage growth - making your job at the front desk more difficult. Balancing the needs of your patients and practice can be difficult when it comes to discussing the patient's financial responsibility.

Shockwave Therapy: History, Research, and Practical Application

Harlan Pyes • 2 CEUs

Room: 28-30 | *Sponsored by Harlan Health Products, Inc.*

Harlan Health Products, Inc.

This session explores the history, science, and growing use of Shockwave Therapy in chiropractic and physical therapy. Attendees will learn the two main types of shockwave therapy and their practical applications for treating soft tissue conditions. A hands-on component will help build confidence in explaining and delivering treatment for improved patient outcomes.

SCHEDULE • LCA Track — FRIDAY, MAY 15

THE NEXT CHAPTER IN CHIROPRACTIC

2009:

The ANJC documents & prepares extensive claims information for NJ DOBI, prompting a Market Conduct Study into Triad Healthcare's improper practices. Triad is sanctioned and fined for denying and underpaying chiropractic claims.

2010:

The ANJC fights and chiropractors win an administrative action against BC/BS for \$33 million. BC/BS is found to have improperly denied payments for exams, re-exams, and physical modalities, which chiropractors now receive payment for.

2011:

Governor Christie signs legislation into law creating a new license category for...

6:

signs the
Assistant
y, creating a
in the state.

2024:

Governor Phil Murphy signs Assembly Bill 4913 into law on January 8, 2024, ending Virtual Credit Card Mandates.

2025:

A3099 is favorably released from Assembly Regulated Professions Committee (7-0), making way for chiropractic students nearing graduation to gain experience through licensed preceptorships.

2026:

The legislation establishing a chiropractic preceptorship program in New Jersey (A3099/S196) was passed by both houses of the state legislature and signed into law by Governor Murphy on January 12, 2026.

- M.S. in Applied Clinical Nutrition (online)
- M.S. in Human Anatomy and Physiology Instruction (online)
- M.S. in Physician Assistant Studies*

CERTIFICATE

- Massage Therapy Certificate

WWW.NORTHEASTCOLLEGE.EDU

Northeast College of Health Sciences has applied for Accreditation - Provisional from the Accreditation Review Commission on Education for the Physician Assistant (ARC-PA). Northeast College of Health Sciences anticipates matriculating its first class in September 2026, pending achieving Accreditation - Provisional status at the April 2026 ARC-PA meeting. Accreditation - Provisional is an accreditation status granted when the plans and resource allocation, if fully implemented as planned, of a proposed program that has not yet enrolled students appear to demonstrate the program's ability to meet the ARC-PA Standards or when a program holding accreditation-provisional status appears to demonstrate continued progress in complying with the Standards as it prepares for the graduation of the first class (cohort) of students. Students cannot be matriculated or enrolled without this accreditation. Should the program not receive ARC-PA provisional accreditation, the anticipated program start will be delayed until accreditation is received. The M.S. in Physician Assistant Studies program is currently pending approval of the New York State Education Department (NYSED).

2026 ANJC Awards

Honoring Excellence & Innovation in Chiropractic

Chiropractor of the Year

Michael Acanfora, DC

With almost thirty years of experience in chiropractic care, education, and healthcare leadership, **Dr. Michael Acanfora** is currently the Director of Chiropractic at Visco Spine & Joint Center in Bayonne, New Jersey. His role involves overseeing chiropractic services within a collaborative care environment. Dr. Acanfora began his career by founding Acanfora Chiropractic in 1997 and later became the CEO of The Wellness Institute. Here, he spent nearly twenty years developing health programs focused on lifestyle, nutrition, and overall well-being. Additionally, he served as a partner at the Health Coaching Academy, providing guidance on behavior modification and health coaching techniques to individuals and healthcare professionals.

In addition to his clinical work, Dr. Acanfora is active in-patient education and community health promotion. He co-hosted the Beyond Your Wildest Genes podcast and established educational platforms such as the Beyond Your Wildest Genes Academy: Being Superman initiative. He also created and produced the Health & Wellness in Bayonne television program, sharing valuable health information with the local community.

Dr. Acanfora's clinical approach and educational philosophy are influenced by his advanced studies in functional medicine at the Kresser Institute, as well as his certifications as a Primal Health Coach and Enlited Coaching. By integrating chiropractic care with nutrition, physical activity, and psychological strategies, he aims to achieve lasting health outcomes.

Actively involved in the chiropractic field, Dr. Acanfora holds positions on the Board of the Association of New Jersey Chiropractors. He leads the Association Development committee and has been a longstanding member of the Insurance Committee.

As a published author, Dr. Acanfora has written books such as Getting to Goddess: Getting Your Hormones Right, Whole Food Harvest, Crock Pot Cooking—Paleo Style, and Fermented Foods 101, focusing on practical health improvement techniques. His literary works and projects aim to provide accessible ways to enhance health, including initiatives like The Longevity & Anti-Aging Project and The Pain Relief Project.

Outside of his professional commitments, Dr. Acanfora was actively involved in youth sports, coaching baseball and soccer, and taking on leadership roles within local leagues.

2026 ANJC Awards

Honoring Excellence & Innovation in Chiropractic

Lifetime Achievement Award

Joseph D'Angiolillo, DC

Dr. Joseph D'Angiolillo is a distinguished clinician and professional leader who has dedicated over four decades to the advancement of chiropractic care. His journey in the field began at the prestigious Palmer College of Chiropractic in Davenport, Iowa, where he served as a senior x-ray intern and was honored as a recipient of the Daniel David Palmer Scholarship. Graduating Summa Cum Laude in 1984, he established his private practice the following year and continues to provide expert care to the community of Somerset, New Jersey.

Throughout his prolific career, Dr. D'Angiolillo has been a cornerstone of professional advocacy in New Jersey. His leadership spans several prominent organizations, including the New Jersey Chiropractic Society and the Central Jersey Chiropractic Society, where he served as President. Most notably, he has held an array of high-level positions within the Association of New Jersey Chiropractors (ANJC), including Chair of the Legal and Finance Committees, Second Vice President, and a highly impactful term as President from 2011 to 2014. In recognition of his tireless service and clinical excellence, the ANJC honored him as the Chiropractor of the Year in 2015.

Beyond his leadership roles, Dr. D'Angiolillo is a respected educator and researcher. He contributed as an editor for the New Jersey Chiropractic Society Back School Program and has maintained a strong commitment to specialized certifications, earning a Fellowship from the International Chiropractic Pediatric Association in 1996 and Cox Technique Certification in 2008. A prolific writer, he authored the "Doctor's Bag" column for the Princeton Packet and has published numerous case studies in peer-reviewed publications, such as the Journal of Chiropractic Medicine. His work on the effectiveness of the Cox Technique continues to bridge the gap between clinical practice and academic research, cementing his legacy as a pillar of the chiropractic profession.

2026 ANJC Awards

Honoring Excellence & Innovation in Chiropractic

Trail Blazer Award

Scott A. Beck, DC, DICCP

Dr. Scott A. Beck, DC, DICCP is a chiropractor, healthcare leader, and educator with over 20 years of clinical experience serving Ocean County, New Jersey. A graduate of Palmer College of Chiropractic West, where he earned his Doctor of Chiropractic degree with honors, Dr. Beck also completed advanced studies in physical therapy at the Philadelphia College of Pharmacy and Science.

Dr. Beck is one of Ocean County's only board-certified Diplomate in Clinical Chiropractic Pediatrics (DICCP) and is Webster Technique Certified. He is a National Registry Certified Medical Examiner and has performed DOT physicals for commercial drivers for over 13 years.

Dr. Beck is the founder of a multidisciplinary wellness center offering chiropractic care, functional and integrative medicine, acupuncture, massage therapy, Reiki, and holistic health services.

A respected leader in both healthcare and the community, Dr. Beck serves as Secretary of the Foundation Board at RWJBarnabas Health's Community Medical Center and is the past Chair of the Emerging Leaders, where he was honored as the 2022 Emerging Leader of the Year. Dr. Beck is actively involved with the Association of New Jersey Chiropractors as a member of the Association Development Committee and the PAC. He is also an active member of the International Chiropractic Association council of Chiropractic Pediatrics, and International Chiropractic Pediatrics Association to help contribute to the advancement of the profession.

2026 ANJC PAC

We invite all members and non members to donate to the ANJC PAC.
A strong commitment from the everyone in the Chiropractic community allows us to better advocate for the profession as a whole.

We had the privilege of hosting Senator Joseph Cryan at ANJC HQ, a productive fundraising event organized by the ANJC PAC—bringing together a dedicated group of colleagues for a unique opportunity to engage directly with one of New Jersey’s key legislators.

Senator Cryan emphasized the importance of proactive engagement with our legislators and urged us to assert our influence. *“Your voice matters,”* he said, encouraging us to reach out, educate, and inform our representatives about the vital issues affecting our practices and our patients.

This direct interaction is crucial in ensuring that our concerns & the value of chiropractic care are understood and prioritized in the legislative process.
